The International Bibliography on Computers and Law is published as a part of «Informatica e diritto»

Materie coperte dalla Bibliografia

1) Applicazioni dell'informatica nel campo giuridico, con particolare riguardo a:
— sistemi di documentazione,
— processi decisionali,
— automazione nel Parlamento, negli organi giurisdizionali, nella Pubblica Amministrazione e nelle macro-organizzazioni.

2) Diritto e sociologia dell'informatica.

3) Teoria e tecnologia dell'informazione ed elaborazione dei dati, inclusi gli aspetti formali e cibernetici, purché connessi coi punti 1) e 2).

Fields covered by the Bibliography

1) Applications of the computer in the whole field of law; e.g.:
— documentation systems,
— decision processes,
— automation in Parliament, the Courts, Public Administration and other macro-organizations.

2) Legal and sociological problems relating to information systems.

3) Theory and technology of information and data processing including formal and cybernetic aspects if a possible connection to 1) and 2) can be given.

Champs couverts par la Bibliographie

1) Les applications de l'informatique à l'ensemble du droit, notamment:
— l'informatique juridique documentaire,
— le processus de décision,
— l'automatisation dans le Parlament, les Cours et tribunaux, l'Administration et les grandes organisations.

2) Droit de l'informatique et problèmes sociologiques relatifs aux systèmes de traitement de l'information.

3) La théorie et les techniques de l'information et du traitement des données, ainsi que les aspects logiques et cybernétiques, sous réserve de leur rapport avec les domaines précédents.

Erfasste Gebiete der Bibliographie

1) Anwendungen der ADV im Recht; zB:
— Dokumentationssysteme,
— Entscheidungsverfahren,
— Automation der Oeffentlichen Verwaltung, der Gerichte und Parlamente sowie grosser Organisationen.

2) Informationsrecht und soziologische Probleme in Bezug auf Informationssysteme.

3) Theorie und Technologie der Information und Datenverarbeitung einschliesslich formaler und kybernetischer Aspekte, wenn eine Verbindung zu 1) und 2) denkbar ist.

INTRODUCTION

Aims of the International Bibliography

The present issue contains a computerized and phototypeset International Bibliography on Computers and Law, the main purpose of which is to give an up-to-date reference aid on legal informatics to a wide range of users at a national and international level. In order to encourage and develop international communications and improve harmonization and unity within the Bibliography, English has been chosen as the main documentation language and English rules have been followed in the citation of bibliographical references, even though the Bibliography is published as a part of an Italian journal and the data has been compiled mostly by national centers. The International Bibliography on Computers and Law is a keyword-out-of-context (KWOC) index divided into three main parts: a keyword index, the bibliography itself, and an author index.

How to use the Kwoc Index

Words which arouse the particular interest of the reader may be found in the alphabetic keyword listing. When a given word is located, a glance underneath will reveal its relationship to the titles. Access to complete bibliographic information may be gained by matching each alphanumeric code printed under the keyword entry with the identical code appearing in progressive order in the Bibliography.
The names of all authors and the alphanumeric code of their works are listed in the Author Index. Access to the Bibliography may also be made through the Author Index.

Keyword Index

This is an automated list of relevant words or combinations of words which serve as descriptors of the contents of retrieved documents and which are listed in alphabetical order on the left-hand side of each page. These keywords are taken from the untranslated titles of English language publications, from the English translation of foreign language titles, from the English abstract of individual documents and from editorial insertions aimed at enlarging retrieval possibilities. For this purpose some connections between keywords of similar meaning have been indicated by the editorial staff.
The titles pertaining to each keyword – completed with their English translation and alphanumeric code on the left which identifies the entry and refers the user to the Bibliography itself – appear automatically under the keyword.
A typical entry in the Keyword Index follows.

Data protection law		
Australian Information Privacy Law Proposed.	3721	0701P
BDSG Löschungsanspruch gegenuber dem AGB-Register des Bundeskartellamts (BDSG Providing a Demand for Cancellation against the AGB-register of the Federal Cartel Office)	3743	1996P
Canada Introduces FOI/Privacy Legislation	3721	0704P
Canadian Privacy Complaints Decline Commissioner Calls for Public Alert	374	0705P
Council of Europe Data Protection Convention Ready for Ministerial Approval	424	0702P
Criminalita e tecnologia il caso dei «computer-crimes». (Crime and Technology The Computer Crimes)	331	0228P

Bibliography

This is the main index. it contains complete bibliographical details of each analyzed entry and a short description of its content added in English by the editorial staff. The documents are ordered according to an alphanumeric code which refers the user from the Keyword or Author Index back to the Bibliography for full information
A typical entry in the Bibliography follows

1310 Residents' records (registration of births, deaths, marriages and residence)

0103P Robertson John D.

Department of the Registers of Scotland Computerization of the Register of inhibitions and Adjudications.
Computers and Law, 1980, August, No. 25, p. 11-12

The Register of inhibitions and Adjudications is the subject of the second development stage of the application of computer technology in the Department of the Registers of Scotland The purpose of registration in the Register is to give notice to the public that persons inhibited or sequestrated are unable to grant a good title should they wish to sell their heritable property The Register consists of a series of minutes wich are precis of each document registered This system will give a quicker and more efficient service to solicitors and will save on typists Source language: English.

The code consists of two parts The first part arranges individual entries according to a Decimal Classification Table printed at the front of the Bibliography. The classification table, elaborated by the editorial staff, reveals document content using a 6-figure code corresponding to the six specification levels of the table The first part of the code is on top of all documents pertaining to it and is completed with relative headings as contained in the classification table The second part of the code refers to each single entry and precedes the author name. It consists of a 4 figure number representing the serial number of entries analyzed A letter code follows, representing the nature of the analyzed entry B = Books and Booklets; G = Grey Literature, M = Miscellaneous, P = Items derived from periodicals

Author Index

This section lists all authors or editors (followed by «ed ») included in the index arranged in the alphanumeric code that refers to entries in the Bibliography It is arranged automatically in alphabetical order
The authorship of anonymous entries is attributed to the journal in which they appear in this case the name of the journal is given followed by «ed »
A typical entry in the Author Index follows

Mersich Dan		
Commercial Arbitration Can Resolve Problems.	341	1089P
Perplexing Computer Questions Push Legal Frontiers	331	1040P
Regulating Transborder Data Flow May Turn Out to Be Futile	307	1128P
Who Is Liable if There s «Electronic Trespass»?	3421	1041P
Will Common Sense Prevail in Computerizing of Land Records?	1313	1109P

TABLE OF DOCUMENTARY UNITS PRODUCED BY EACH DOCUMENTATION CENTER

	B*	C*	M*	P*	Total
1 Istituto per la documentazione giuridica del CNR - Firenze (Italy)	—	16	46	300	362
2. Prof. Jon Bing, Norwegian Research Center for Computers and Law - Oslo (Norway)	—	—	—	9	9
3. Dr. Deirdre Exell Pirro, Studio PIRRO Public Information Research and Retrieval Organization - Firenze (Italy)	74	9	12	1217	1312
