PRESENTATION

The Conference is organized jointly by the CIRSFID (Interdepartmental Research Center in History of Law, Philosophy and Sociology of Law and Legal Informatics of the University of Bologna) and by the Institute of Theories and Techniques of Legal Information of the National Research Council of Firenze.

The purpose of the day is to officially present LEFIS (*Legal Framework for the Information Society* - www.lefis.org) an international research project founded by the European Union under the 6th Framework Programme, that involves academic institutions, research centers, firms, lawyers and public administrators coming from the different states of the E.U.

LEFIS has as objective to introduce, starting from the elaboration of normative proposals, the Information and Communication Technologies in the Faculties and Schools of Law, and to promote the study of regulations and practice codes in the Polytechnic Centers. LEFIS wants to elaborate also didactic solutions with the possibilities that offers the use of the web and the didactic resources "on line". Another objective of LEFIS is to elaborate policies on Law and new technologies coming from discussions originated in the different regions of the European Union, assisting to the characteristic necessities, traditions and requirements of the groups of countries that integrate the Thematic Network.

The Conference is addressed to lawyers, notaries, judges, public administrator, and people coming from the world of industry, politics and university.
